

Hygiene  
Fresh

Magic

A Liquid chemical solution  
that Vanish with Ease

# PLASTIC WASTE

Global plastic waste generation has been on the rise for decades

Around 300 million tons of plastic are produced annually, with a significant portion ending up as waste.

**OUR SOLUTION TO REDUCE PLASTIC WASTE :**

## **Water-Soluble Packaging**

Hygiene Fresh had done an Innovative change in packaging our liquid products.

One of the main advantages of water-soluble packaging is its environmental friendliness. Since it dissolves in water, there is no need for disposal or recycling. This can help reduce plastic waste and minimize environmental pollution, especially in applications where single-use packaging is common.

## Hygiene Fresh **Magic**

The Revolutionary Water-Soluble Liquid  
in a Dissolvable Pouch

Our water-soluble liquid is packaged in a unique dissolvable pouch that breaks down completely in water within just two minutes, leaving behind no harmful residues or waste.

By choosing our water-soluble liquids in dissolvable pouches, you're not just simplifying your life – you're making a positive impact on the planet. Together, let's create a cleaner, greener future for generations to come.

## How to use:

Drop

Fill

Shake & Use

## Benefits

---

Entire Pack Dissolves Easily in Water

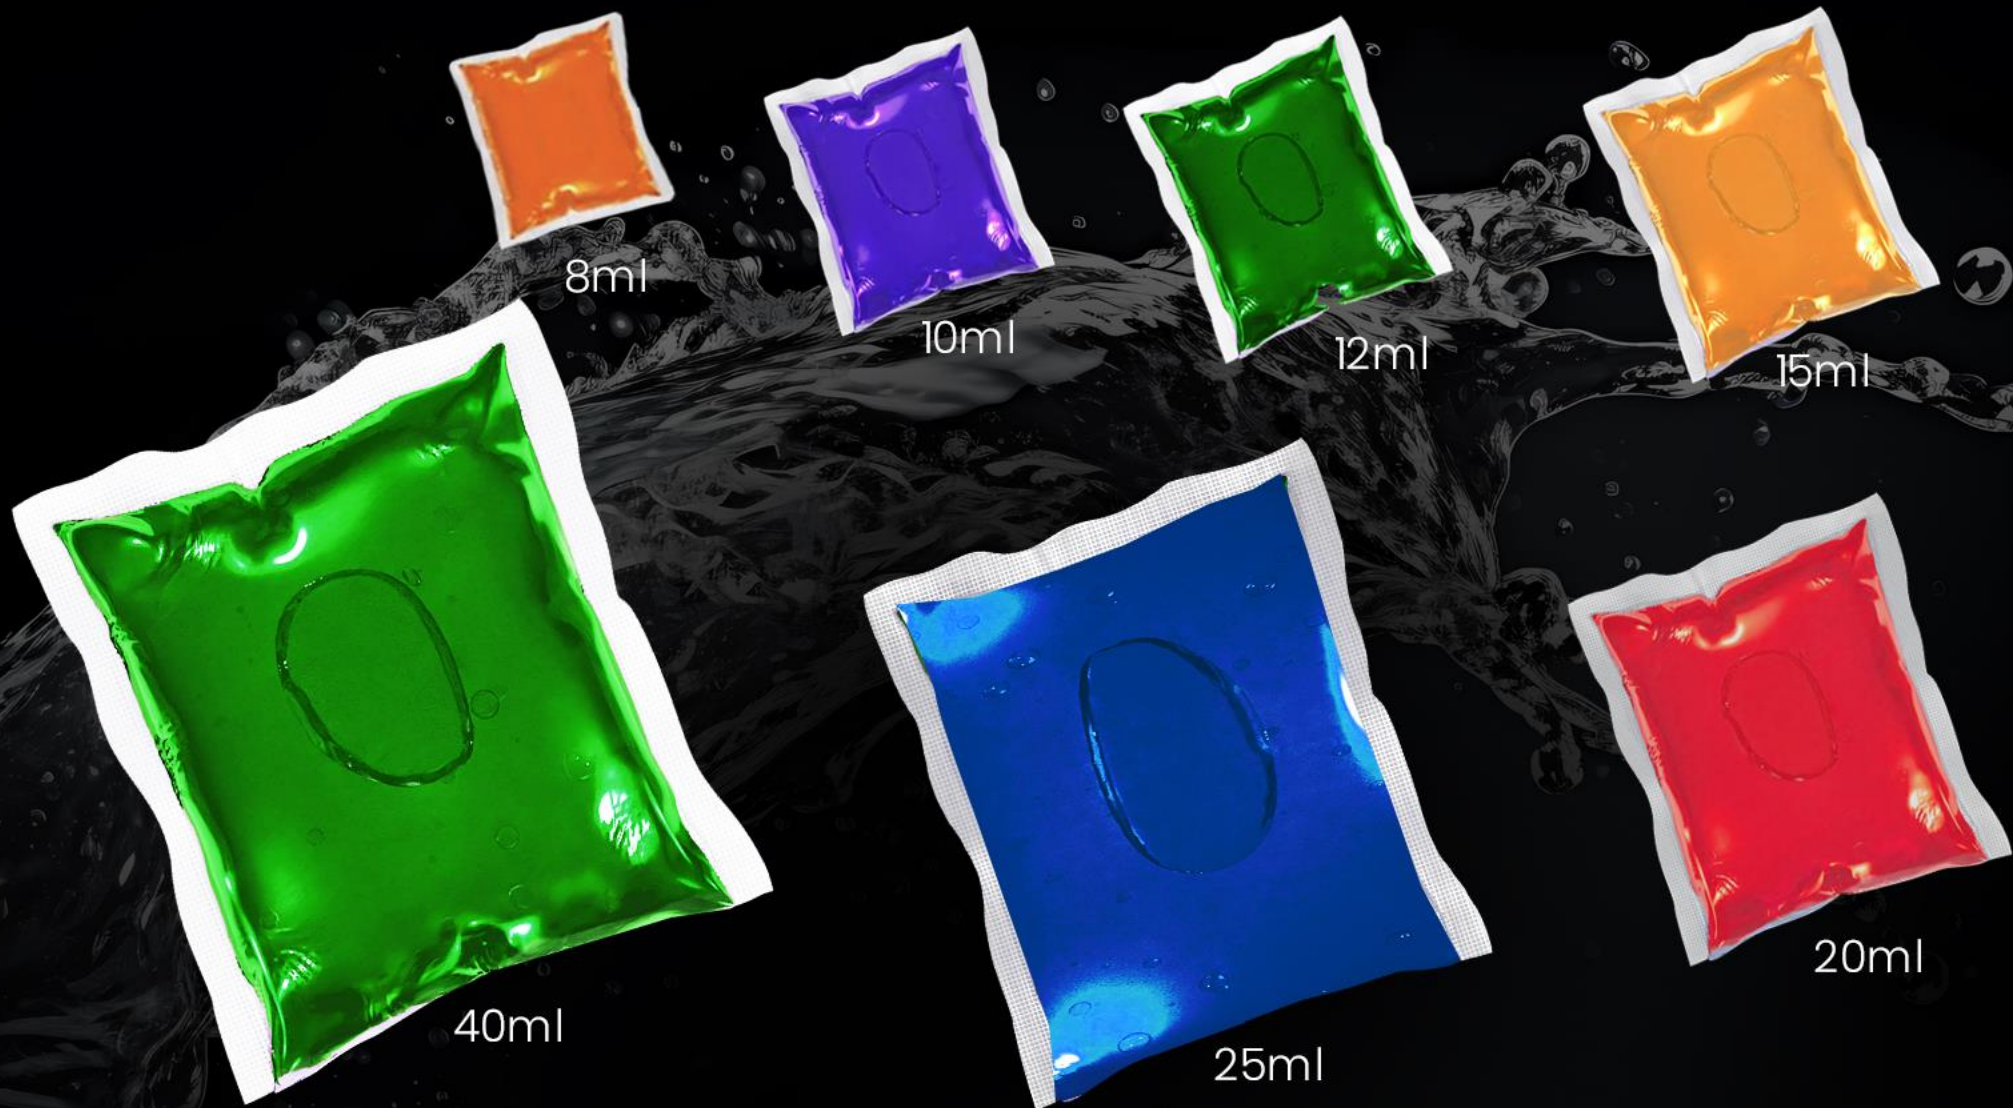

Safe and Easy to Use

Reduces Waste
